

Documentation of Reward Points for Woocommerce

Installation of Reward Points for Woocommerce

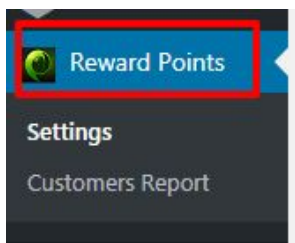

Installation

- Install Word Press from http://codex.wordpress.org/Installing_WordPress.
- Upload via **FTP**: - Unzip the zip archive you have downloaded on your computer. Upload the folder to your server via FTP into the directory plugins on your Word press installation (wp-content → plugins).
- Upload via Word press Admin: - Go to your WordPress admin panel, and then to Plugins. Click on "Add New" and then upload the zip file of the plugin using "Upload Plugin" button you can find on top of the screen.
- For the plugin to work as it should, WooCommerce plugin has to be installed and enabled.

Activation

Once you have uploaded the **plugin**, **activate** your plugin in **Plugins** → **Installed plugins**.

If it has been activated correctly, plugin control panel is available in the tab **Reward Points** in WordPress dashboard.

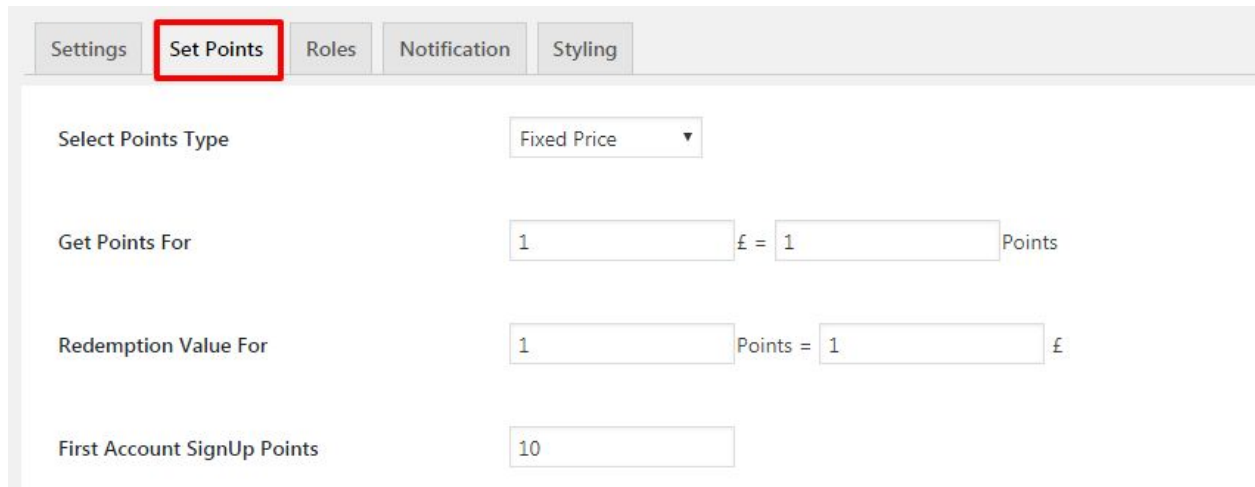

Description

It is a plugin which provides the customers to get the reward points on the basis of the purchase of the products or the money spent by them.

General Settings available

- **Get Points for** - Admin can set the points for the product price like 1\$ = 1 points so if the product price is \$30 then customer will get 30 points. Like this you can set the rules.
- **Redemption Value For** – The admin can set this settings for the redemption of points. Like for 1 points they will get 1\$ as per the admin requirement.

The screenshot shows a configuration interface with a top navigation bar containing tabs for 'Settings', 'Set Points', 'Roles', 'Notification', and 'Styling'. The 'Set Points' tab is highlighted with a red border. Below the navigation bar, there are four configuration rows:

- Select Points Type:** A dropdown menu currently set to 'Fixed Price'.
- Get Points For:** A text input field containing '1', followed by '£ =', another text input field containing '1', and the word 'Points'.
- Redemption Value For:** A text input field containing '1', followed by 'Points =', another text input field containing '1', and the symbol '£'.
- First Account SignUp Points:** A text input field containing '10'.

- **Referral Points** – Can set the referral points functionality. This functionality is available in “set points” tab.

Referral Points 10

- **How does it work** – When any user can register on your website. They will receive a Referral Code. And when he logs into his account then in the **account details** he will see a option to send the referral code to his friend. When his friend register on the site by using the referral code then the person who sends the referral code will get the **Referral Points**.
